

Better Together

The Role of Public-Private Partnership in Open Science

Better Together

OPEN SCIENCE is a **cultural change** that places **'Collaboration'** and **'Competition'** in equal terms.

Better Together

collective intelligence / work

micro-expertise

the entire spectrum of our society

Better Together

PARTNERSHIP

“engaged together in the same activity”

Common goals – Complementary practices – The same measures

Better Together

“Who is in charge of the supply of bread to the population of London?”

Better Together

Start handling this change and to design new collaborations, based on principles like honesty, hard work, transparency and politeness.
