TOWARDS FAIR SCIENCE: 3 PILLARS

GO CHANGE

- What kind of **support** is needed in order to **foster cultural change**?
- What **prevents** you / your colleagues from providing your data in a FAIR manner?
- Which **advantages** do you hope for when ensuring FAIR compliance?

GO TRAIN

- **Who** needs to be trained?
- What is the essential **content** of a training?
- What is the **best way to convey FAIR skills** to specific target groups?

GO BUILD

- What are currently the **biggest challenges** for the **development** of FAIR Software / Services / Infrastructures?
- Which **technical framework or support services** are required to generate FAIR data?
